

YEREVAN SYNTHETIC RUBBER PLANT

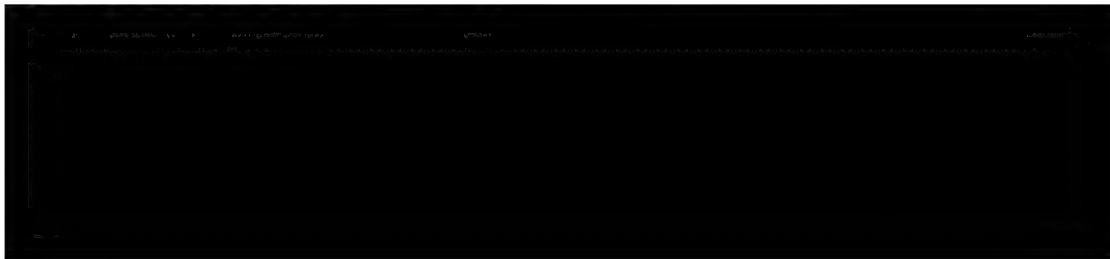

25X1A

This memorandum is in answer to a request from [REDACTED] ORR/M/Ch, for a description of post-World War II changes in a synthetic rubber plant in Yerevan, USSR.

The Saltzman Projector was utilized in preparing a drawing of the plant at an approximate scale of 1/3,000 based on captured German aerial photography dated August 1942.

25X1D An overlay to this drawing was prepared based on USAF long-range oblique photography [REDACTED] The overlay indicates newly constructed buildings and pipelines as well as destroyed or damaged buildings. Only one copy of the drawing and overlay was prepared and delivered to the requester.
